

HASAN OMAR AL DIERY

Sharjah, UAE | hassan032005@gmail.com | +971 566349001 | github.com/Hasan-Omar39 |

EDUCATION

B.Sc. Computer Science, American University of Sharjah.

Coursework: Software Engineering, Web Applications, Mobile Development, Artificial Intelligence, Computer Vision, Assembly, Databases.

PROJECTS

- Sentic — Android voice journaling app (Java): fully on-device bilingual (EN/AR) transcription with sherpa-onnx Whisper and Silero VAD, speaker verification by cosine matching, encrypted Room storage, custom Canvas charts for emotion reports; local-first with an optional cloud tier.
- FlavorBase — full-stack recipe manager: Java Servlets on Tomcat, MySQL over JDBC, responsive JavaScript frontend with CRUD, search and category filtering.
- iLearn Hub — Electron desktop app: authenticates against the university LMS REST API with session cookies, scrapes assessment deadlines and exports them to Google Calendar.
- Multi-model AI orchestration: LiteLLM proxy shim routing between hosted open-weight models and local inference (MLX, Ollama) on Apple Silicon, driving a headless agent loop for code and data tasks.

EXPERIENCE

Research Assistant, Social Media Data Collection — AUS

2026

- Built an automated collection pipeline (n8n + Apify) covering X, Instagram and YouTube, producing a structured dataset of posts, replies and engagement metrics at ~\$0.22 per run.
- Designed the coding schema (item IDs, engagement fields, observational codes) used for downstream analysis.

Technical & Operations Support — Alyamman Wax and Accessories, UAE

- Converted 503 WhatsApp order exports into a structured JSONL dataset via an LLM-assisted parsing pipeline.
- Built a Python analytics pipeline generating a multi-sheet Excel report on order volume, product mix and customer repeat behaviour, now used for purchasing decisions.

SKILLS

Languages: Java, Python, JavaScript, SQL, Kotlin, C++, x86 Assembly (MASM)

Tools & Frameworks: Android SDK, Java Servlets, MySQL, Firebase, Git, n8n, Pandas, LiteLLM

Spoken: Arabic (native), English (fluent)
