SUMMARY:

Computer Science student at the American University of Sharjah pursuing a Bachelor of Science. Building a strong foundation in software development, web technologies, databases, and low-level programming. Comfortable working across C++, Python, Java, JavaScript, HTML, SQL, and x86 Assembly (MASM), with a focus on clear problem-solving and dependable teamwork.

TECHNICAL PROFILE:

SOFTWARE DEVELOPMENT

- Object-oriented programming and modular program design
- Algorithmic problem-solving, debugging, and code tracing
- Writing clear and structured programs across multiple languages

WEB & DATABASES

- Front-end fundamentals using HTML and JavaScript
- Relational database concepts and SQL querying
- Organizing data and connecting program logic with structured information

SYSTEMS & LOW-LEVEL PROGRAMMING

- x86 Assembly programming with MASM
- Understanding registers, memory, arithmetic flags, and low-level execution
- Translating higher-level logic into lower-level program operations

CORE STRENGTHS:

- Problem-Solving
- Analytical Thinking
- Adaptability
- Team Collaboration
- Communication
- Time Management
